

Getting to the Conference Center at Sea-Tac Airport

For the Tuesday noon meeting at the airport, from the North end ferry, the 11:20am ferry won't get you there in time. The 10:40am boat will.

Go to the airport general parking garage. You want to take Skybridge #1, which is the Southmost and served by the green elevators. After the skybridge continue up the escalators and walk straight:

About half way across the hall you'll see a set of stairs on your right heading up; that's where you want to go. A little beyond the top there will be some glass doors on your left opening to the conference center:

The Port has their own directions here: <https://www.portseattle.org/page/conference-center-location-directions>

We have buttons (the kind you wear not the kind you press) to distribute to those who make it to the meetings if you want to wear one. They are quite engaging, as modeled here by Falcon:

Just look for me when you get to the meetings to get one. You're welcome to keep it, but if you don't think you'll wear it much, it would help to return it so we don't need to make as many for future events.

Hope to see lots of you this week.

David
